<b>Name</b>	<b>Price</b>	<b>Description</b>
<b>Bassin Anticipation Tester</b>	£ 3,599.00	<p><b>Dynamic version of the classic Bassin Anticipation Tester, which includes the photobeam timing module.</b></p> <p>The subject watches the apparent approach of a series of LED lights along a runway strip and attempts to stop the timer when the light reaches the nearest end of the runway. A digital readout gives an exact measure of performance. The test can be adapted using a bat, raquet, club etc to break the photobeam, appropriate to the subject's preferred sport. Provides excellent repeatability independent of environmental variables, allowing direct comparison between athletes and over a number of sessions.</p> <p>Includes three runway sections (not two as shown in photo), tripod stands, timer unit and photobeam module.</p> <p><b>NOTE : This product does not qualify for preferential discounts.</b></p>
